

To Whom This May Concern:

I have been as subscriber to XM radio for over 8 months and have enjoyed it thoroughly. The programming value for the \$ far exceeds most of my expenditures. The traffic & weather feature on XM has proven to be useful in my recent travels and needs to be expanded. I understand the NAB is trying to make this go away because they fear competition.

Please reject the NAB petition 04-160 and let XM press on with the business they do best - providing a superior product at a competitive price.
